

Premier Web Clipping Applications

Wireless Internet.

Web clipping, not web browsing, is a fast way to access the Internet wirelessly. No modem, no wires. You get just the information you ask for. Instead of a web page, you get a web clipping—a condensed, efficient format that's fast and easy to read. Web clipping applications from many premier partners are included with the Palm™ VIIx handheld and give you news, stock quotes, online trading, shopping, and a host of Internet information. You can also add more applications by visiting www.palm.net.

The following web clipping applications are included with your Palm VIIx handheld:

Communications

Juno Air™
Rovenet P7-fax

Wireless Internet.

It's the handheld that connects you to the best of the Internet.

The new Palm™ VIIx handheld lets you access the best of the Internet, communicate via e-mail, and stay on top of your information—wirelessly and easily. With 8MB of memory, you can customize the Palm VIIx handheld with your choice of hundreds of web clipping applications and thousands of third-party add-on applications. The Palm.Net™ wireless communication service in more than 260 U.S. metro areas allows you to trade stocks; get quotes, news items, or sport scores; look up addresses, flight information, or weather forecasts; and send and receive e-mail virtually anywhere. Activation is easy and instant, and you can choose from a variety of monthly service plans, starting at \$9.99. With more web clipping applications and more memory, the Palm VIIx handheld gives you the best of the Internet, where and when you want it.

*Add-on applications based on average size of 50K; web clipping applications based on average size of 15K.

Two easy steps to web clipping

Once you've activated your monthly Palm.Net™ service plan, just raise the antenna to access the web clipping applications instantly.

1

Tap the application icon you want. For example, tap MapQuest to look up directions on your handheld.

2

Using your stylus or on-screen keyboard to input your request into the web clipping form, tap Directions, and the information appears within seconds.

Wireless Web Access and More

Enter data
your way.

The Palm™ VILx handheld is so flexible, it lets you decide how you want to input your data.

Graffiti® Software
Award-winning Graffiti power writing software is simple—use your stylus to input easy-to-learn characters.

On-Screen Keyboard
Tap with your stylus to bring up the on-screen keyboard. Then simply tap the characters you want to enter.

PC Keyboard
Input data on your PC keyboard, then just touch the button on the HotSync® cradle, and it's transferred instantly to your Palm VILx handheld.

Infrared Transfer
Accept and transmit information from any other IR-enabled Palm OS® handhelds.

Infrared
“Beam” files and applications—even your business card—to other IR-enabled Palm OS® handheld users.

Get Organized
Store and instantly retrieve information from the Date Book, Address Book, To Do List, and Memo Pad.

HotSync® Technology
Back up and exchange information with your desktop PC and popular PIMs at the touch of a button. You never have to input data twice, and it's always backed up on your PC.

Powerful Yet Simple
You instinctively know how to get the most from your Palm™ handheld, right out of the box.

Safeguard Your Data
Back-up, update, and exchange information between your handheld and PC with the touch of a button. Then access your data from your PC or while on the go.

Easily Upgradeable
Included flash memory allows you to keep up to date with new features and software updates.

Thousands of Solutions
From games to personal productivity and enterprise-class software, you can choose from a variety of software and hardware add-ons to extend the capabilities of your handheld.

Do More With Less
Optimized software for handheld computing lets you carry even more data and applications.

Antenna
This is your connection to the Internet. Just raise the antenna when you want to query the Internet or send and receive messages. What could be easier?

Expandable
With thousands of additional applications available, your handheld allows you to easily add the hardware and software that meets your needs.

Find
Locate anything on your organizer instantly. Just enter a name or word in the find area and it's there.

Palm.Net™ Wireless Service

Instant activation, right out of the box.
Simply raise the antenna on your Palm™ VILx organizer, enter secure billing and credit card data, then submit your information wirelessly. In just a few minutes, you can query the Internet or send and receive iMessenger® messages.

The Palm.Net™ wireless service covers the most populous U.S. metro areas. So when you're traveling, your Palm VILx handheld keeps you in touch with the information you need.

Wireless E-mail & Messaging.
With the iMessenger application, you now have the freedom to send a quick message to anyone with an Internet address while you're sitting in a meeting, standing on a street corner, or riding in a cab. When you subscribe to the Palm.Net™ service, you get a new Internet address for sending and receiving wireless messages using your Palm™ VILx handheld. You can also use third-party web clipping applications to access your ISP, web, or corporate e-mail.*

Three convenient service plans to choose from.
The Palm.Net service provides three affordable monthly service plans to help you enjoy web clipping and the iMessenger application. Use the table below to select the plan that best meets your needs—and check www.palm.net or ask your Sales Associate about possible Palm.Net service promotions.

Service Plan Options	Basic Plan	Expanded Plan	Unlimited Volume Plan
Monthly service fee	\$9.99	\$24.99	\$44.99
Kilobytes (KB) included in your monthly fee	50KB ¹	150KB ²	unlimited
Sample monthly usage ³	30 messages	90 messages	unlimited
	20 stock quotes	60 stock quotes	unlimited
	10 sports scores	30 sports scores	unlimited
	10 traffic reports	30 traffic reports	unlimited
	10 weather updates	30 weather updates	unlimited
Transactions	80	240	unlimited
Each additional KB	\$.20	\$.20	\$0
One-time set-up fee	\$9.99	\$9.99	\$9.99

No additional roaming charges. You're billed only for the information you send and receive, measured in kilobytes (about three Palm VILx screens equals 1KB). Additional taxes may apply.

¹Or approximately 150 Palm VILx screens. ²Or approximately 450 Palm VILx screens. ³Categories, number of transactions, and individual usage in each category may vary. Information is subject to change. Visit www.palm.net for current service plan options. Palm, Inc. reserves the right to change its fees and billing methods, including the addition of supplemental fees or separate charges for content or service provided by Palm, Inc., effective thirty (30) days after an online posting in the billing area of www.palm.net.

*Depending on your corporate e-mail setup, additional software may be required; sold separately by third-party software publishers.

For information on coverage, solutions, applications, and accessories, visit www.palm.com.

Palm.Net Wireless Communication Service.

Palm, Inc. offers affordable service plans—giving you full access to both web clipping and wireless Internet messaging features. After a one-time \$9.99 setup fee, monthly service starts at only \$9.99, or you can choose the Unlimited Volume plan. You're billed only for the information you send and receive—not for online or transmission time.

Coverage includes more than 260 metropolitan areas across the United States. There are no roaming charges—the same rates apply everywhere.
